5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	6. SOURCE military		
7. LENGTH OF OBSERVATION 4 mins	8. NUMBER OF OBJECTS one	9. COURSE West	
10. BRIEF SUMMARY OF SIGHTING Round obj size and brightness of 1st mag star Red with apparent luminous vapor swirling about obj. Vapor 20X size of obj. Attention attracted by brightness of light. Initial appear- ance on Horizon to East. Obj passed overhead on course of 270 deg. Appeared to fall into clouds and did not reappear. In sight for 4 minute.s 7X50 & (9X54 BX used. Initial impression was of a/c in trouble. Radar and radio contact with obj failed. Obj believed to be missile. Due to shock wave pattern of vapor.		11. COMMENTS Description conforms with analysis of missile. Launch probably from Vandenburg or Pt Mugu. Sighting in area over which missiles would take on flight to target area near Phillippines.

Widely Seen UFO In Calif.

Shortly after 4:00 a. m., on the morning of 25 September 1963, a fast-moving UFO was reported over Santa Clara and San Mateo counties. Reports came in from the town of Woodside and San Jose also. Sheriff's offices in the above-mentioned counties received twenty reports. Some descriptions given by witnesses were as follows: "A half moon pulsating object," a "circular object lighted from the interior." The light, which appeared to turn off and on was visible intermittently. The Federal Aviation Agency, when queried, was unable to account for the UFO.
